

SARS-CoV-2 Research Reagents Now Available from Biosensis

Dear Researcher,

We hope you and your family are staying safe during these unprecedented times. Without doubt, research into SARS-CoV-2 has become a top priority worldwide to develop a better understanding of this novel coronavirus, the mechanisms that cause COVID-19, and resulting immunological responses in humans.

Biosensis has introduced a new range of [SARS-CoV-2 reagents](#) for Research Use Only, including [ELISA kits](#), [proteins](#) and [small molecule inhibitors](#).

Our range of products include:

- [Nucleocapsid Protein \(NP\) IgG ELISA Kit](#)
- [Nucleocapsid Protein \(NP\) IgM ELISA Kit](#)
- [Nucleocapsid Protein \(NP\) Total Antibody ELISA Kit](#)
- [S1 Receptor-Binding Domain \(S1RBD\) IgG ELISA Kit](#)
- [Nucleocapsid \(NP\) and S1RBD proteins](#)
- Small molecule inhibitors such as [Camostat Mesylate](#) and [Ivermectin](#)

These reagents are available from [Biosensis](#) and its worldwide network of [distributors](#) for fast turnaround times.

Best wishes,

The Biosensis Team
