

Chicken polyclonal antibody to human Leptin

Catalogue No.:	C-1510-500
Description:	Leptin is secreted by white adipocytes and functions as part of a signaling pathway that can inhibit food intake and/or regulate energy expenditure to maintain constancy of the adipose mass. Leptin also has several endocrine functions and is involved in the regulation of immune and inflammatory responses, hematopoiesis, angiogenesis and wound healing (Ref: Entrez Gene).
Batch No.:	See product label
Unit size:	500 uL
Antigen:	Recombinant human Leptin protein
Other Names:	Leptin; Obesity factor; Lep; Ob; Obese protein;
Accession:	P41159 LEP_HUMAN;
Produced in:	Chicken
Applications:	ELISA and WB. Suggested dilution of 1:1,000-1:2,000. Biosensis recommends that the optimal working dilution should be determined by the end user.
Cross-reactivity:	Human Leptin
Form:	Liquid. PBS with 0.02% Sodium Azide
Storage:	Short term storage at 2-8C for one week. At -20C as an undiluted liquid for up to 12 months.
Expiry Date:	12 months after purchase

Western blot analysis of leptin in Human. Lane 1: Rabbit polyclonal antibody to human Leptin (R-1552-100) at 1:1,000 Lane 2: Chicken polyclonal antibody to human Leptin (C-1510-500) at 1:1,000
