

Chicken polyclonal antibody to Transforming growth factor beta-1 (372-386): Affinity purified

Catalogue No.:	C-1541-100
Description:	Transforming growth factor beta-1 (TGFB1) is a multi-functional cytokine with roles in proliferation, differentiation and other functions in many cell types. The secreted TGFB1 protein is cleaved into a latency-associated peptide (LAP) and a mature TGFB1 peptide (Ref: SWISS-Prot).
Batch No.:	See product label
Unit size:	100 uL
Antigen:	A peptide from human and mouse Transforming growth factor beta-1 (372-386 aa).
Sequence:	RKPKVEQLSNMIVRS
Other Names:	TGFB1; TGFB; TGF-beta-1;
Accession:	P01137 TGFB1_HUMAN;
Produced in:	Chicken
Applications:	WB and ELISA. Suggested dilution of 1:2,000-1:5,000. Biosensis recommends that the optimal working dilution should be determined by the end user.
Cross-reactivity:	Human, Mouse, Rat, Porcine
Form:	Liquid. PBS with 0.02% Sodium Azide
Storage:	Short term storage at 2-8C for one week. At -20C as an undiluted liquid for up to 12 months.
Expiry Date:	12 months after purchase
