

Goat antibody to human C-reactive protein: whole serum

Catalogue No.:	G-007-100
Description:	Can interact with DNA and histones and may scavenge nuclear material released from damaged circulating cells. COFACTOR: Binds 2 calcium ions per subunit.
Batch No.:	See product label
Unit size:	100 uL
Antigen:	Human recombinant C-Reactive protein
Other Names:	CRP; PTX1
Accession:	CRP_HUMAN
Produced in:	Goat
Purity:	Whole serum
Applications:	WB. Extremely high titre antibody. For western blot a dilution of 1: 10,000 to 1: 100000 is recommended. Biosensis recommends optimal dilutions/concentrations should be determined by the end user.
Specificity:	It has been shown to be specific for C-reactive protein by WB.
Cross-reactivity:	Human
Form:	Lyophilised
Reconstitution:	Reconstitute in 100 uL of sterile water. Centrifuge to remove any insoluble material.
Storage:	After reconstitution keep aliquots at -20C for a higher stability, and at 2-8C with an appropriate antibacterial agent.
Expiry Date:	12 months after purchase
