

## Mouse monoclonal antibody to human Fucosyltransferase 10 [4H3]: IgG

<b>Catalogue No.:</b>	M-910-100
<b>Description:</b>	Fucosyltransferase 10 is a probable fucosyltransferase that localises to the golgi apparatus, the Golgi stack membrane. It is a single-pass type II membrane protein. There are 7 named isoforms produced by alternative splicing.
<b>Batch No.:</b>	See product label
<b>Unit size:</b>	100 ug
<b>Antigen:</b>	Recombinant human Fucosyltransferase 10, isoform 7 [1-92], with a GST tag.
<b>Clone:</b>	4H3
<b>Other Names:</b>	Alpha-(1;3)-fucosyltransferase 10; Galactoside 3-L-fucosyltransferase 10; FucT-X; Fuc-TX; FUT10
<b>Accession:</b>	FUT10_HUMAN
<b>Produced in:</b>	Mouse
<b>Purity:</b>	Protein G purified immunoglobulin
<b>Applications:</b>	This antibody is recommended for WB and sandwich ELISA. Biosensis recommends optimal dilutions/concentrations should be determined by the end user.
<b>Specificity:</b>	Specificity has been confirmed by WB and ELISA against the antigen.
<b>Cross-reactivity:</b>	Human. Other species have not been tested.
<b>Form:</b>	Lyophilised from PBS pH 7.2
<b>Reconstitution:</b>	Reconstitute in 100 uL of sterile water. Centrifuge to remove any insoluble material.
<b>Storage:</b>	After reconstitution keep aliquots at -20C for higher stability or at 2-8C with an appropriate antibacterial agent. Glycerol (1:1) may be added for additional stability. Avoid repetitive freeze/thaw cycles.
<b>Expiry Date:</b>	12 months after purchase

Western blot detection of GST tagged recombinant human Fucosyltransferase 10. Note the GST tag alone is 26 kDa.
