

## Mouse polyclonal antibody to human SorCS2: whole serum

<b>Catalogue No.:</b>	Mo-951-50
<b>Description:</b>	SorCS2 is a family member of vacuolar protein sorting 10 (VPS10) domain-containing receptor proteins. It is noted that all mammalian VPS10 domains carry an N-terminal signal peptide for translocation into the endoplasmic reticulum. The greatest similarity between the receptors is found in the C-terminal parts of the VPS10 domains, which harbor 12 cysteine residues with a characteristic spacing conserved in all VPS10 proteins from yeast to man. SorCS2 is a single-pass type I membrane protein that is highly expressed in brain and kidney. It is also detected at low levels in heart, liver, small intestine, skeletal muscle and thymus.
<b>Batch No.:</b>	See product label
<b>Unit size:</b>	50 uL
<b>Antigen:</b>	Partial recombinant human SorCS2 (951-1050) with a GST tag.
<b>Other Names:</b>	VPS10 domain-containing receptor SorCS2; SORCS2; KIAA1329
<b>Accession:</b>	SORC2_HUMAN
<b>Produced in:</b>	Mouse
<b>Purity:</b>	Whole serum
<b>Applications:</b>	This antibody is recommended for WB and ELISA. Biosensis recommends optimal dilutions/concentrations should be determined by the end user.
<b>Specificity:</b>	Specificity has been confirmed by WB and direct ELISA against the antigen.
<b>Cross-reactivity:</b>	Human. Other species have not been tested.
<b>Form:</b>	Liquid. 50% glycerol
<b>Storage:</b>	Keep aliquots at -20C for higher stability or at 2-8C with an appropriate antibacterial agent. Avoid repetitive freeze/thaw cycles.
<b>Expiry Date:</b>	12 months after purchase

Western blot detection of GST tagged recombinant human SorCS2. Note the GST tag alone is 26 kDa.
