

Anti-Red Fluorescent Protein Tag (Mouse Monoclonal)

| | |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalogue No.: | M-1315-100 |
| Batch No.: | See product label |
| Unit size: | 100 ug |
| Antigen: | Recombinant Red Fluorescent Protein (dsRed) expressed from bacteria. |
| Clone: | RF5R |
| Other Names: | RFP; |
| Accession: | Q9U6Y8 RFP_DISSP; |
| Produced in: | Mouse |
| Purity: | Protein A affinity chromatography |
| Applications: | Western Blotting (WB), Immunohistochemistry (IHC) and Immunoprecipitation (IP). Suggested starting dilutions are as follows: WB at 1:1,000, IP at 5 ug/mg lysate and IHC at 1:200. Biosensis recommends optimal dilutions/concentrations should be determined by the end user. |
| Specificity: | Designed to detect Red Fluorescent Protein (RFP) and its variants in ELISA (sandwich or capture), immunoblotting, immunoprecipitation and immunohistochemistry. |
| Form: | Liquid. PBS, pH 7.4 with 0.05% sodium azide |
| Storage: | Stable for 1 year at -20C from the date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to opening the cap. Aliquot to avoid repeated freezing and thawing. |
| Expiry Date: | 12 months |
