

## Chicken polyclonal antibody to Peroxisome proliferator-activated receptor gamma (115-129): Affinity purified

<b>Catalogue No.:</b>	C-1533-100
<b>Description:</b>	Peroxisome proliferator-activated receptor gamma (PPARG) is a nuclear hormone receptor that binds peroxisome proliferators such as hypolipidemic drugs and fatty acids. Once activated by a ligand, the receptor binds to a promoter element in the gene for acyl-CoA oxidase and activates its transcription (Ref: SWISSPROT).
